

Regional, Country, Institution, and Library Reports - Proformas

The following proformas are intended as a guide to those preparing such reports for presentation or submission to the Joint Iamslic/Euraslic Conference in Brest, France, October 2001. Use of these proformas will help to standardise the information provided by each participant. The forms are in no way intended to be prescriptive and participants are free to submit more comprehensive reports if they so wish. If you are unable to attend the meeting it would be most useful if you could send a report. If you are planning to attend the meeting it would be most useful if you could submit your report in advance by email to: Joan Baron Varley (joan.baron@fao.org)

The information provided in these reports provides an important source of information on the current state of aquatic information provision in our respective regions and countries.

During the Conference sessions the time allocated for the presentation of each report will be approximately ten minutes, with additional time for questions and discussion at the end of each session.
